Infosys Hiring Manager
Infosys
2400 N Glenville Dr cr150
Richardson, TX 75082

Dear Infosys Hiring Manager:

I'm writing to apply for the AWS cloud computing role. I am looking to gain experience in the field and broaden my scope of knowledge by becoming more familiar with industry standards. I have a wide variety of technical experience and a drive to learn and solve problems.

I am interested in the position because I feel it is a fantastic opportunity to gain experience in a practical setting where my learning and work can be applied productively towards a tangible goal. I have experience with coding in Python, operating and administrating on Linux, and using Git for version control. I also understand basic penetration testing using Nmap and am familiar with common vulnerabilities present in computer systems that can be exploited by hackers.

I am excited for an opportunity to grow professionally in a practical environment. Please find attached to this my resume as well as my personal website hosting my portfolio. I look forward to hearing from you, and am eager to discuss the position and the opportunities it provides.

Sincerely,
Ben Reilly
